

$$2+2$$

mathematics for children

---

2.1a

**Presented by: Angelica Jan R.  
Legaspi**

# What is 2+2 all about?

- is an attractive educational program or we can say it a learning game too
- intentionally developed to help your kids in learning basic mathematical skill
- helps your kids learn counting with lots of fun

- kids can learn addition, subtraction, multiplication and division ranging from 0 to 100 very easily
- You can select different types of mathematical games for each of the mathematical skill.
- October 5, 2005

## 2+2 Features:

- counting, addition, subtraction, comparing numbers, multiplication and division (ranging from 0 to 100)
- 21 interesting exercises
- Makes deductive process of learning attractive
- Possibility of printing the multiplication table
- Has very nice voice quality & nice narration

Farbatętnice dopasuj kolory tętni!

?

0 1 2 3 4 5 6 7 8 9

Back Forward

Nachując na kolory tętni, doprowadź zwierzątko do jedzenia.

0 1 2 3 4 5 6 7 8 9 10

Wzrost zwierząt

5 - 2 = 3

0 1 2 3 4 5 6 7 8 9 10

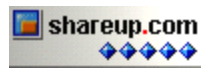

Porównaj rozmiar zwierząt, które żyją w parku to porównaj tętni.

81

58+3	62+12	72+10
53+24	68+13	2+5
74+4	55+14	89+1

# AWARDS

# Advantages and disadvantages

Freeware	Uses 16 bit color
Very easy to use	Low resolution
Voice quality is very nice	Work in the full screen mode only
Easy learning style	
Full control over the volume	
No need for internet connection	

# Is it developmentally appropriate?

- ✓ Children's knowledge
- ✓ Children's culture
- ✓ Children's individuality (age, gender, interests, etc.)

# Suggestions for users

- For parents and teachers:
  - Guide the children because some instructions will be confusing especially for little kids
- For students:
  - Have fun
